

DAC BEACHCROFT

Carbon Reduction

Supplier name: DAC Beachcroft LLP

Publication date: January 2026

Commitment to achieving Net Zero

DAC Beachcroft is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline Year: 2020

Additional Details relating to the Baseline Emissions calculations.

In 2020 we established our baseline Greenhouse Gas (GHG) emissions and have since reported our GHG emissions annually to the Carbon Disclosure Project (CDP). In 2024 our targets were approved by Science Based Targets Initiative (SBTi), the world-leading framework for setting targets in line with the Paris Agreement. In those targets, we committed to more ambitious carbon reduction measures and to expanding the scope of our environmental reporting, including calculating our Scope 1, 2, and 3 carbon emissions.

Baseline year emissions:

EMISSIONS	TOTAL (tCO ₂ e)	EMISSION SOURCE	(tCO ₂ e)
Scope 1	184.92 (tCO ₂ e)		
Scope 2	1221.65 (tCO ₂ e)		
Scope 3 (included sources)	1012.25 (tCO ₂ e)	1. Purchased Goods & Services 2. Capital Goods 3. Fuel and Energy Related Emissions 4. Upstream Transport and Distribution 5. Waste 6. Business Travel 7. Employee Commuting 8. Upstream Leased Assets 9. Downstream Transport and Distribution 10. Processing of Sold Products 11. Use of Sold Products 12. End-of Life of Sold Products 13. Downstream Leased Assets 14. Franchises 15. Investments	3,018 900 332 817 5 340 2675 Note 1 Note 2 Note 2 Note 2 Note 2 Note 2 Note 2 Note 3 Note 4
Total Emissions	2418.82		

Note 1 - DACB use an operational control approach and emissions associated with energy consumption from offices and fleet are reported within Scope 1 & 2.

Note 2 - These categories are only applicable for companies who sell products to distributors. DACB does not sell products to distributors and therefore does not produce reportable emissions for these categories.

Note 3 - DACB does not have any Franchises and therefore does not produce reportable emissions for this category.

Note 4 - DACB does not have any Investments and therefore does not produce reportable emissions for this category.

Current Emissions Reporting

Reporting Year: 2025

Additional Details relating to the Baseline Emissions calculations.

Our current emissions are in some cases greater than our baseline reported emissions. This is because we significantly changed how and what we were recording as emissions and aligned with SBTIs. As a result, we are identifying and addressing more emissions now than we were previously.

EMISSIONS	TOTAL (tCO ₂ e)	EMISSION SOURCE	(tCO ₂ e)
Scope 1	195 (tCO ₂ e)	Stationary Combustion Mobile Combustion Fugitive Emissions	46.2 0 148.9
Scope 2	65 (tCO ₂ e)	Electricity Stationary (market-based) Mobile Electricity	64.7 0
Scope 3 (included sources)	12,941 (tCO ₂ e)	1. Purchased Goods & Services 2. Capital Goods 3. Fuel and Energy Related Emissions 4. Upstream Transport and Distribution 5. Waste 6. Business Travel 7. Employee Commuting 8. Upstream Leased Assets 9. Downstream Transport and Distribution 10. Processing of Sold Products 11. Use of Sold Products 12. End-of Life of Sold Products 13. Downstream Leased Assets 14. Franchises 15. Investments	8421.7 247.4 168.7 71.6 0.3 1131.6 2899.9 Note 1 Note 2 Note 2 Note 2 Note 2 Note 3 Note 4
Total Emissions	13,201		

Note 1 - DACB use an operational control approach and emissions associated with energy consumption from offices and fleet are reported within Scope 1&2.

Note 2 - These categories are only applicable for companies who sell products to distributors. DACB does not sell products to distributors and therefore does not produce reportable emissions for these categories.

Note 3 - DACB does not have any Franchises and therefore does not produce reportable emissions for this category.

Note 4 - DACB does not have any investments and therefore does not produce reportable emissions for this category.

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that DACBs carbon emissions will decrease over the next five years and be reduced to the below by 2030:

- Scope 1 & 2 - 42%
- Scope 3 - 25%

Carbon Reduction Projects

The following environmental management measures and projects have been completed or implemented since the 2020 baseline:

Improving our Business Travel and Commuting Policies.

We now gather our suppliers' Carbon Emissions and waste data on an annual basis.

Ensuring our third-party selection process is aligned with SBTi accredited providers.

Phase 3 of Energy Saving and Opportunities Scheme (ESOS) is completed which includes audits to ensure that all of our offices are fitted with energy-efficient systems. We are now working with ESOS to complete Phase 4 which will allow us to create a more detailed plan on how we will achieve Net Zero by 2050.

In the future we hope to implement further measures such as:

We are developing our existing Supplier Engagement Programme to persuade suppliers to reduce the carbon intensity of their operations and also sign up to the SBTi (where they haven't already done so).

As part of our ESOS audit, we are implementing opportunities to reduce electricity consumption by increasing building efficiencies.

New office openings will be either Carbon Neutral or Net Zero.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard .

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
